Dear Colleague

British Menopause Society 27th Annual Conference

I am writing to invite you to join us at the British Menopause Society two-day 27th Annual Conference.

**Menopause care: past, present and future**

This year’s annual conference programme has been designed to provide a comprehensive range of lectures and workshops to refresh and broaden your knowledge of post-reproductive health and to give you the confidence to manage the menopause in the way you feel is best.

The Programme Planning Group, chaired by Mr Tony Parsons, has produced an excellent line up including an invited session from the Indian Menopause Society; the debate, which this year is *This House believes that Vitamin D supplementation should be recommended to all women* and the ever popular Menopause Café.

We are delighted to welcome Dr Robert D Langer from the University of Nevada School of Medicine, who is delivering the BMS Annual Lecture: *Reassessing the Women’s Health Initiative (WHI) HRT trials* and Professor Bart Fauser, from the University of Utrecht, Netherlands who will give the Pat Patterson Memorial Lecture: *Polycystic ovary syndrome: implications for menopause and future health*.

The full conference programme is shown on pages 4-7.

It is good to be back in the Midlands, hosting our conference at Chesford Grange in Warwickshire. Set in 17 acres on the banks of the river Avon, the venue combines historic charm with a modern conference suite.

I look forward to meeting you and to a productive and enjoyable conference.

With best wishes

Heather Currie
Chairman, British Menopause Society
An educational meeting to bring you up to date with management of the menopause, all aspects of post-reproductive health and the practical outcomes of the NICE Guideline on Menopause.

The British Menopause Society (BMS) established in 1989, provides education, information and guidance to healthcare professionals specialising in all aspects of post reproductive health.

This is achieved through an annual programme of lectures, conferences, meetings, exhibitions and our interactive website. We offer a range of publications including our quarterly journal Post Reproductive Health and the definitive handbook Management of the Menopause.

Women’s Health Concern (WHC), the patient arm of the BMS, provides an independent service to advise, reassure and educate women of all ages about their health, wellbeing and lifestyle concerns.

WHC offers unbiased information – by telephone, email, printed fact sheets, online and through symposia, seminars, meetings and workshops, including Living and loving well beyond 40…!

www.womens-health-concern.org

Our Mission

• To increase awareness of post reproductive healthcare issues
• To promote optimal management through our educational programme, publications and information dissemination

The challenge of post reproductive health management is increasing. As most British women can expect to live for 30 years or more beyond menopause, the consequences for immediate and longer term healthcare and lifestyle are significant.

British Menopause Society membership is open to healthcare professionals and others specialising in post reproductive health.

Affiliations

The British Menopause Society is a specialist society affiliated to the Royal College of Obstetricians and Gynaecologists and the Faculty of Sexual and Reproductive Healthcare. Working together we have developed theoretical and practical training modules aimed at those healthcare professionals who regularly work in the field of women’s health.

Sponsorship & exhibitor opportunities
There is a medical exhibition integral to this two-day conference and other sponsorship opportunities are available.

These range from keynote lecture sponsorship to delegate bag inserts; branded lanyards and badges; to sponsored breakout sessions.

For details of opportunities or to discuss a tailored package, please call +44 (0)1628 890199 or email admin@bms-whc.org.uk

“Thoroughly enjoyed both days. Found all presentations interesting and definitely helpful to support my current practice. Most useful conference I have attended in a while.”

“Thanks for an excellent conference – superb speakers and very informative and helpful for my work.”

“Really enjoyed the two days. Looking forward to seeing where things have got to next year!”
