1655 Final remarks and close
Dr John Stevenson

* The late Dr Gerald Swyer was internationally recognised for his early work on the development of the contraceptive pill; the first endocrine and fertility clinics in London; and his pioneering research on hormone replacement therapy. He was chairman of Women’s Health Concern from 1980 until 1993, when Dr John Stevenson succeeded him. The Dr Gerald Swyer Memorial Fund was set up in 1995 as a lasting tribute to him.

Please note, sessions and speakers may be subject to change. This meeting is financially supported in part by the pharmaceutical industry through sponsorship but it has no influence over the meeting programme.
